

ANSHRAJ THAKUR Full Stack Developer

“📞 +91-9919XXXXXX ✉ anshforworkhere@gmail.com [🌐 LinkedIn](#) [🐙 GitHub](#) [🌐 Portfolio](#)”

Summary

Full Stack Web Developer and AI/ML enthusiast with experience in building responsive web applications, interactive UI designs, and scalable projects using modern technologies. Skilled in JavaScript, React, Python, SQL, and frontend animations, with a strong interest in software engineering and AI-powered applications.

Skills

Programming Languages: JavaScript, Python, SQL, Java

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend Development: Node.js, Express.js, REST APIs

Database Technologies: MongoDB, MySQL

Developer Tools: Git, GitHub, VS Code, Postman, Figma

Core Expertise: Full Stack Web Development, UI/UX Implementation, API Integration, Authentication Systems

Projects

WeBOS - Web Based Operating System | *React, TypeScript, Tailwind CSS* May 2026 – Present

- Built a web-based operating system with desktop interface, taskbar, draggable windows, and file explorer.
- Implemented nested file/folder management and responsive UI with smooth animations.
- Added real-time collaboration features using WebSockets for connected users and live updates.

CodeColab2 — Real-Time Code Editor | *React, Node.js, Socket.io, Yjs, Monaco* May 2026

- Built a collaborative editor using Yjs CRDTs and Monaco Editor to support real-time, conflict-free text synchronization.
- Implemented user presence awareness using Socket.io to dynamically display active session participants in the sidebar.
- Designed a responsive, VS Code-inspired UI using React 19 and Tailwind CSS, featuring user color badges and tabbed views.

Cinematic 3D Portfolio | *React, Three.js, Framer Motion, Express, Node.js* April 2026

- **Developed an immersive 3D web experience** using React Three Fiber, Drei, and Tailwind CSS v4 to render interactive layouts and components.
- **Created fluid animations and transitions** by integrating GSAP, Framer Motion, and Lenis smooth scroll for a seamless cinematic user experience.
- **Configured a Node.js Express backend** with Nodemailer to securely process contact form submissions and deliver automated email alerts.

ResumeAnalyser (AI Resume Builder) | *React, Node.js, Gemini API, jsPDF* May 2026

- **Built an AI resume parser** using React and the Gemini 2.5 Flash API to analyze ATS compatibility and readability.
- **Developed a secure backend** using Node.js and Multer to parse PDF/DOCX files entirely in-memory with zero disk writes.
- **Implemented client-side PDF export** via jsPDF, enabling users to edit and download AI-rewritten resumes in real time.

Awards and Certifications

- **Full Stack Web Development Certificate – Sheriyans Coding School:** Completed comprehensive training in frontend and backend web development including React.js, Node.js, Express.js, MongoDB, and modern web technologies.
- **Internship Certificate in Data Science and Image Processing Using Python OpenCV – College Internship Program:** Worked on image processing concepts, computer vision basics, and data analysis using Python and OpenCV.

Education

Bachelor of Technology (B.Tech) in Artificial Intelligence and Machine Learning

2024 - 2025

Oriental Institute of Science and Technology

CGPA: 7.8 / 10
